

# Monthly News Letter

22 March 2024

- **Attention Residents:** A vehicle was stolen a couple of days ago between 11pm to 2:00 am from Oak Pond. Officer Lampe is asking everyone to please check cameras and give him a call if you have any activity. The homeowner's vehicle was recovered on college and 41. However, the suspects still need to be apprehended.
- Auto thefts and car break-ins are the most intrusive, invasive, unpleasant, and hard to predict crimes that exist.
- We as residents need to take a stand and not let our community become another increasing crime statistic. Please email the HOA if you are interested in starting, organizing, and being the point of contact for a community crime watch committee.
- If you see something, Say something! Contact the local police department asap if you notice any suspicious behavior or activity around the community. If you have any information in reference to the stolen vehicle please contact Detective Eric Lampe #257776 @ (813) 838-3849 or email: [elampe@teamcso.com](mailto:elampe@teamcso.com).

- **Safety Alert:** Parents please keep your children from playing around or swimming in the retention ponds.
- Stormwater ponds are NOT for recreational purposes. Recreational use of stormwater ponds is potentially hazardous to your health and is not permitted.
- Stormwater ponds are designed to capture and retain stormwater runoff, which may contain many different types of pollution including sediments, oils, greases, trash, heavy metals, pesticides, herbicides, pathogens, snakes and alligators.
